

71st LCA Discussion Forum

Environmental Benchmarks for buildings: Needs, challenges and solutions

Tuesday, 18 June 2019, ETH Zürich, Alumni (GEP) Pavillon

We cordially invite you to the **71**st **Discussion Forum on Life Cycle Assessment**The official language of this event is English

The Paris agreement requires a significant reduction in greenhouse gas emissions. One of the priority sectors is the building stock, as it is an important source of greenhouse gas emissions. COP23, IEA and increasing number of countries are extending their consideration from aspects such as building energy demand and emissions from building operation to building construction and the manufacture of construction materials.

This DF will allow participants to inform themselves on the state of activities and regulations on the environmental LCA of buildings in Switzerland, European and other foreign countries. The day will focus on two aspects:

- environmental benchmarks: How are they derived? What is their level of ambition (checked against, e.g. the Paris Agreement and planetary boundaries)? How much differentiation is needed/offered (new/refurbished buildings, different types of buildings, different climate zones)?
- national assessment methods: The results and learnings of a round robin test are presented in which researchers from different countries assessed an identical building with their national assessment approaches.

This DF profits from the research activities of the IEA EBC Annex 72 "Assessing Life-Cycle Related Environmental Impacts Caused by Buildings".

This forum is targeted to LCA practitioners and researchers as well as policy makers in the construction sector.

We look forward to meeting you in Zürich

Rolf Frischknecht, treeze Ltd.

Programme:

8.45 Registration, coffee & croissants Rolf Frischknecht, treeze 9:10 Welcome and introduction to the topic Rolf Frischknecht, treeze 9:25 The Paris Agreement: The phase-out of greenhouse gas emissions to reach the 1.5°C target and the role of the construction sector Elmar Grosse Ruse, WWF Schweiz 09:45 The be2226 office building in Lustenau: Architectural characteristics and BIM model Martin Röck, TU Graz 10:25 Learnings from a round robin test of assessing the environmental impacts of the be2226 office building Livia Ramseier, treeze 10:25 Discussion Informat Litzkendorf, KIT 11:25 The French benchmark systems regarding environmental impacts of buildings Informas Litzkendorf, KIT 11:20 The French benchmark system for buildings: its goals and its effects Bruno Peuportier, MinesParisTech * 11:25 The Swiss benchmark system for buildings: its goals and its effects Annette Aumann, City of Zurich 11:45 The Belgian benchmark system for buildings: its goals and its effects Damien Trigaux, KU Leuven * 12:25 Lunch Lexisting benchmark system for buildings: its goals and its effects Antonin Lupisek, CTU 13:25 The Czech benchmark system for buildings: its goals and its effects Antonin Lupisek,	Time	Title	Speaker [Chair]

Practical information

Registration

To register for the whole year or a single LCA Discussion Forum, please use the following link: https://www.converia.ethz.ch/frontend/index.php?sub=90

To register you need to create a profile, which is done in very few steps and is self-explanatory. In case you are not able to pay by credit card, please send an e-mail to:

<u>lcaforum@ethz.ch</u> with a short notice that you want to receive an invoice instead. Please provide the full invoice address as well as the chosen fee type.

For all questions regarding the registration process, please do not hesitate to contact: lcaforum@ethz.ch

Programme updates will be available at: www.lcaforum.ch

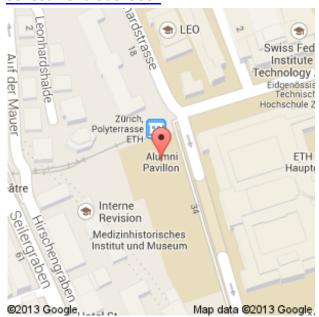

Lunch

Vouchers for lunch at the ETH restaurant will be provided to all participants. A vegetarian meal option is always on offer.

Location

The DF will take place in the Alumni (GEP) Pavillon, Swiss Federal Institute of Technology Zurich, 8001 Zurich.

 $\frac{\text{https://maps.google.ch/maps/ms?msa=0\&msid=205813047619347088253.0004e0af154b1fc2c}}{1968\&ie=UTF8\&ll=47.376616,8.546441\&spn=0.00287,0.006968\&t=m\&z=18\&vpsrc=6\&iwloc=0}{004e0af154df9d0190e4}$

For further information, please contact Barbara Dold: lcaforum@ethz.ch
